

# CORELITH TECHNOLOGIES - BRAND SYSTEM

Production identity specification - Version 1.0

# CORELITH

TECHNOLOGIES

---

BUILD THE INTELLIGENT STACK.

Brand promise: engineered intelligence, trustworthy structure, and a durable platform for advanced software products.

# 01 / BRAND IDEA

The protected core inside an engineered structure

## CORE + LITH

CORE represents intelligence, the central system, and the source of value.

LITH represents stone, structure, permanence, and a dependable foundation.

The open geometric C signals accessibility and forward motion; the inner pillar represents the intelligent core.

The system is intentionally restrained so the parent company can sit above many distinct product brands, including Paralith.

## 02 / LOGO USAGE

Primary configurations and hierarchy

# CORELITH

TECHNOLOGIES

BUILD THE INTELLIGENT STACK.

### Preferred order

1. Primary horizontal lockup
2. Icon-only mark
3. Wordmark-only lockup
4. Vertical badge
5. App icon / favicon

### Clear space

Maintain clear space equal to the width of the inner pillar on all sides.

Do not place the mark inside another shape except the approved app icon.

### Minimum size

Icon: 20 px digital / 7 mm print. Full lockup: 160 px digital / 40 mm print.

## 03 / COLOR SYSTEM

Core palette and functional roles

**Core Blue**

#3B82F6

Primary energy

**Signal Cyan**

#22D3EE

Intelligence accent

**System Teal**

#14B8A6

Success and connection

**Deep Slate**

#0F172A

Primary dark surface

**Midnight**

#020617

Hero background

### Gradient

Use the blue-to-cyan gradient only inside the Corelith symbol and approved product moments. Avoid decorative gradients in body UI.

## 04 / TYPOGRAPHY & VOICE

A confident parent brand, not a noisy product brand

### Display / wordmark direction

Inter Display Medium, tracked generously, converted to outlines in the supplied masters.

### Supporting typography

Inter Regular and SemiBold for website, product interfaces, documents, and presentations.

### Brand voice

- Precise, not robotic
- Ambitious, not exaggerated
- Technical, but understandable
- Premium, without unnecessary complexity

## 05 / MISUSE

Protect the consistency of the mark

### Do not:

- distort, rotate, skew, or redraw the symbol
- change the relative proportions of the icon and wordmark
- replace the approved colors with arbitrary gradients
- add outlines, heavy shadows, bevels, or gaming-style effects
- place the gradient logo on visually noisy or low-contrast imagery
- combine Corelith and a product logo into one merged symbol

### Recommended brand architecture

Corelith Technologies = parent company. Paralith and future products retain independent identities, endorsed with "by Corelith Technologies" when useful.
